Congressman George Crockett  
1531 Longworth Building  
Washington, D.C. 20515

Dear Congressman Crockett.

*George E*

I am in full support of H.R. 1460.

There are no easy solutions to ending apartheid. We are either obligated to assist in the dismantlement or to reinforce an injustice that can only culminate in a tragic manner for all involved.

Oblique obfuscations by the Administration only exacerbate a deteriorating situation. We do not have time to wait another four years to see what might happen.

Keep up the good work! Do not hesitate to contact me for any service I may be able to provide in the future. With warmest personal regards, I remain

Sincerely,

*Clyde Cleveland*
