The Honorable George Crockett, Jr.
U. S. House of Representatives
1531 Longworth House Office Building
Washington, D.C. 20515

Dear George:

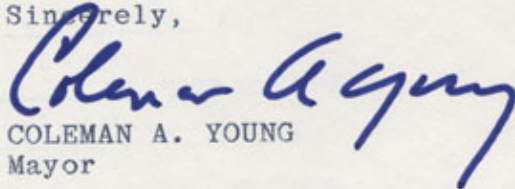

A few weeks ago, I sent you a copy of Detroit's recently completed Superinsulation Project which provides for energy conservation in existing dwellings. That project is one of several energy conservation projects the City of Detroit has conducted with grants from the Department of Energy through the Energy Task Force of the Urban Consortium.

The purpose of this letter is to seek your help in continuing, what I believe to be, the most effective program available for seeking solutions to the energy problems of local governments. It has come to my attention that Congress has provided funding for the Energy Task Force for Fiscal 1986; however, it appears the President will recommend that these funds be deferred in Fiscal 1986.

I ask that you do everything possible to oppose a deferral of funding for the Energy Task Force. It would be a significant loss to the Nation if the program is discontinued.

Again, I want to thank you for your support of the Urban Consortium Energy Task Force.

Sincerely,

COLEMAN A. YOUNG
Mayor
