Ms. Jenny Bardees  
357 St. Clair  
Grosse Pointe, Michigan 48230

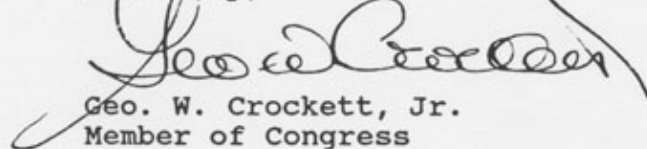

Dear Ms. Bardees:

Since you live in the 13th District which I represent, Congressman David Bonior has referred to me your letter concerning President Bush's proposed Clean Air Act.

I must say that I too am concerned that the president's proposal is a retreat from his earlier strong statements regarding clean air. However, I am hopeful that this bill will serve as a vehicle to address this important issue. You can count on me to do everything within my power to ensure that the final bill will set stronger clean air goals, particularly in the area of emission controls.

I appreciate your writing concerning this matter and hope that you will write regarding other matters of importance to you.

Sincerely,

  
Geo. W. Crockett, Jr.  
Member of Congress
