MEMORANDUM

GWC:

Talked with Steve Wiseman of the Subcommittee on proposed follow-up to our concerns over the Executive Order on South African sanctions. Wiseman says Wolfe feels that he must seek new legislation to combat the regulations promulgated under the EO. Wolfe is said to discussing this approach with Members in order to get something moving early in 1986. You might want to speak to Wolfe since proposed new legislation would spur hearings on the shortcomings of the EO and the subsequent regulations.
